

Me rereading code I wrote a month ago

**When someone asks you to explain what your
code from a month ago does**

It's some kind of elvish

I can't read it

Problem Solving

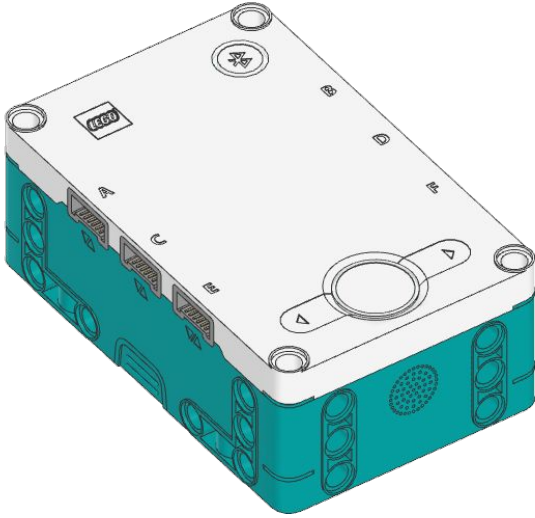

Spike™ Hub

A programmable Hub to integrate Scratch and Python with the sensors and motors.

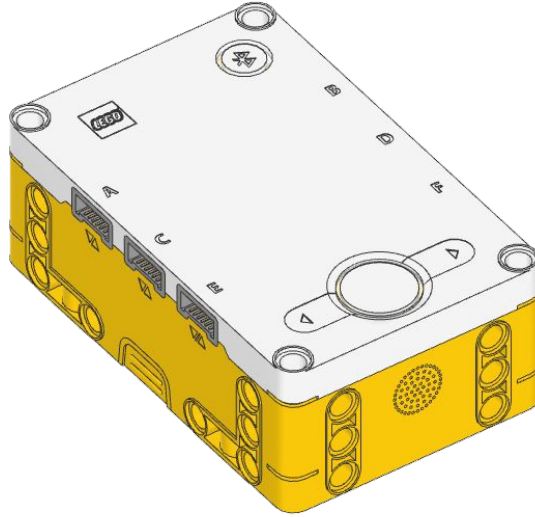

Hubs

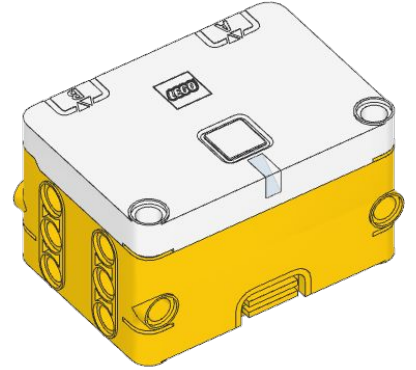

You will be give one of three LEGO® hubs:

LEGO Mindstorms
Robot Inventor

LEGO Spike
Prime

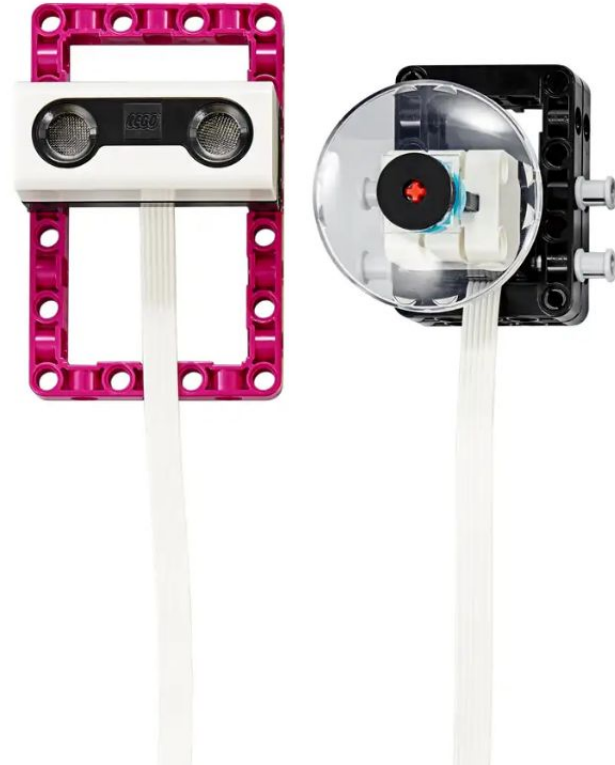

LEGO Spike
Essentials

Distance or Force Sensor

Distance: Measures the distance to an object or surface using ultrasonic technology.

Force: Gives your robot a sense of touch.

Medium Angular Motor

A programmable Hub to integrate Scratch and Python with the sensors and motors.

Motion Activated Parking Gate

Using the provided LEGO® bricks, build a working motion activated parking gate!

Use the hub, distance/force sensor, and a motor.

Language

The LEGO® hubs can be programmed using Scratch or Python.
